

Schedule Assurance

Because the year of Early College must offer students both the opportunity to complete a year of college coursework and allow them to meet high school graduation requirements, we must create course schedules that do both. All students participating in the Lyndon State College Early College Program must work closely with their guidance counsellors to assure that all high school graduation requirements are being met by the coursework they are taking at LSC.

By signing this form, principals and guidance counsellors do two things: 1) guarantee to the student that the coursework taken in the LSC Early College Program will meet all remaining academic high school graduation requirements for the student. 2) Take full responsibility for counselling the student in meeting those requirements. ***Note: no changes will be allowed to the student's schedule after this form is signed.***

Student Name: _____

Sending High School: _____
